TERMS OF REFERENCE

Invitation for empanelment from experienced and eligible Firm(s)/ Consultant(s) for conducting Digital condition survey of bridges, Development of Bridge Information and Management System (BIMS) and Preparation of Bill of Quantities (BOQs).

Background

The Bihar Rajya Pul Nirman Nigam Limited, invites Expression of Interest for empanelment of Firm(s)/ Consultant(s) from reputed consultancy firms / organizations with the following qualifications / experiences for conducting Digital Condition survey of bridges, development of Bridge Information and Management system and also preparation of Bill of Quantities (BOQ), if required, specifying materials, methodologies and cost estimation. The Empanelment does not guarantee the Consultant(s)/Firms for issue of work for any particular job. BRPNNL has the sole discretion in this regard & the Consultant(s)/Firms shall have no claim or to seek any clarification in the matter. BRPNNL will reserve the right to determine the term and condition at the time of agreement.

For executing above mentioned works, BRPNNL requires reputed Firms/ Consultant(s) having experience in conducting a safety audit of bridges, BIMS preparation works with exposure of works assigned to them and preparation of BOQ.

The Empanelment shall remain valid for a period of one year.

The Firm(s) / Consultant(s) will sign an affidavit (duly notarized) as per enclosed format, not to work in direct competition with BRPNNL for anywhere in the country during tenure of the empanelment with BRPNNL. In case it is found that any empaneled party had attempted for direct competition with BRPNNL anywhere in the country their empanelment shall be cancelled without any further notice / intimation besides taking penal action against the Firm(s) / Consultant(s) immediately.

BRPNNL reserves the right to accept / reject or cancel the application or asking for any additional clarification without assigning any reason or incurring any sort of liability to the applicants. Any information if found incorrect / misleading in future will automatically disqualify the Firms / Consultant(s) and will result in termination of the empanelment with BRPNNL permanently. BRPNNL is at liberty to check the original documents at any stage and the registration fee shall be forfeited in such cases for which no claim shall be entertained.

Application Fee / Earnest Money (Security Deposit) and Processing Fees

The Application for Empanelment duly filled in Prescribed Format along with requisite details shall be submitted to the office of undersigned with the requisite empanelment fee of Rs. 2,00,000.00 (Rupees Two Lakhs) in shape of Online payment* / Demand Draft in favor of Senior Quality control Engineer, Quality control Division, Bihar Rajya Pul Nirman Nigam Ltd. Payable at Patna.

- EMD amount will be refundable to the consultant at the end of empaneled period, subjected to the satisfactory completion of job.
- Along with above requisite details and Application Fee / Earnest Money (Security Deposit), Firm(s) / Consultant(s) will have to deposit processing fees (Non refundable) of **Rs.10,000/- (Rupees Ten Thousand) only in shape of Online payment* / Demand Draft** in favor of Senior Quality control Engineer, Quality control Division, Bihar Rajya Pul Nirman Nigam Ltd. Payable at Patna.

➤ Scope of Work

Structural Condition Survey of bridges.

1. Review & Inspection

- 1A. Review of available DPR, design and drawings to assess the existing condition.
- 1B. Detailed visual inspection as per IRC: SP: 35-2024, supported by drone-captured photo/video as required to identify observed structural defects, damages, and deterioration for further analysis. Skilled divers will be used for inspection of the foundation as needed (Note: Drone photography permissions shall be arranged by the client, and underwater inspections will not be feasible during periods of heavy monsoon or in turbid water conditions due to visibility and safety concerns).

2. Data Collection & Perusal

- 2A. Evaluation of bridge-specific parameters, including road category, number of lanes, load ratings, and type of substructure and superstructure, or any others as per site condition.
- 2B. Preparation of digital model of bridges and their components, which may be made accessible for further review and assessment by the Authority, through Rapida or any other suitable platforms.
- 2C. Assessment of environmental and hydrological parameters, including climate impact, and exposure conditions.
- 2D. Component condition investigation & observation covering bearings, expansion joints, railings, approach roads, lane markings, and overall structural wear.

3. Non-Destructive Testing (NDT) Strategy

वरीय गुण नियंत्रण अभियंता का कार्यालय

बिहार राज्य पुल निर्माण निगम लि०,

7, सरदार पटेल मार्ग-पटना-15

Doc. No:- BRPNNL/QCC / C024 /

Dt

Page No..../...

3A. Identification of critical locations for NDT based on visual inspections, data collection & structural parameters.

4. Conducting Non-Destructive Testing(NDT) for various parameters

4A.Strength & Structural IntegrityEvaluation:

- **Rebound Hammer test** for assessment of near-surface concrete strength:10–15 tests per span.
- **Impact Echo/Ultrasonic Pulse Velocity(UPV) test** for detection of internal defects and concrete homogeneity & materialuniformity:3–5testsperspanor as per requirement
- **Capo/Concrete Core test** for assessment of in-situstrength:3–5testsperspanor as per requirement
- **Ground Penetrating Radar** for detailed assessment of distressed concrete: As per requirement

4B.Durability&CorrosionSusceptibility:

- **Half Cell Potential test** for evaluation of corrosion probability in embedded reinforcement:5–10testsperspanor as per requirement
- **Carbonation test** for pH assessment o determine the depth of carbonation and potential deterioration: 5–10testsperspanor as per requirement

4 C.Expansion Joint and Bearing Thickness/condition Evaluations

Bridge Information and Management System (BIMS)

5. Implementation of an Online Dashboard

5A. Development of a AI/ML web-based platform(HTML/Word Press) for centralized data management with automatic Google Map navigation to the Bridge. The key details of the platform are given in the Table.

5B.Compilation of all bridge assessment reports into a structured and easily accessible format.

5C.Secure remote access for stake holders to retrieve and review bridge condition data.

Sr. No	Tool type	ToolName	Feature
1	Online	Online viewer	Import bridge and inventory information via web system from manual information forex. Excel sheets, other data base formats etc.
2	Offline	Mobile app	Add the bridge and inspection photo Add/Edit inventory information of the Bridge Add detailed inspections for all the components of the structure

6. Data Interpretation and Inference

- 6A. Integration of NDT and visual inspection findings for a comprehensive structural condition assessment.
- 6B. Analysis of observed defects with respect to mechanical properties (strength, homogeneity) and durability risks (corrosion, porosity, contamination).
- 6C. Rating and condition assessment of each bridge based on the findings and evaluating the **Bridge Health Index (BHI)** and **Maintenance Priority Index (MPI)** as per IRC: SP: 35-2024.

7. Formulation of Strengthening and Rehabilitation Plan

- 7A. Development of strengthening recommendations based on structural analysis and detailed condition assessment.
- 7B. Preparation of Bill of Quantities (BOQ) specifying materials, methodologies, and cost estimations.

Time Schedule

A draft report after completion of work would be submitted within 4 months of the date of signing of agreement. The major findings of the draft report should be shared with the **BRPNNL**. Feedback from the **BRPNNL** should be taken into account by the Consultant in the final report in a substantive manner and for their cord. The consultant will submit the final report within 5 months of the date of signing of agreement, after taking into account the comment of the **BRPNNL** on the draft report.

Expression of Interest (Eoi)

I. ELIGIBILITY CRITERIA:

Interested firms must meet the following minimum requirements:

A. ProvenTrackRecord:

- Demonstrated experience in structural auditing, bridge condition assessment, non-destructive testing (NDT), and retrofitting design or in structural repair & strengthening of bridges.
- Proven record of successfully completing at least 2 projects with government agencies and reputed private sector clients in last five financial years. One project should involve a bridge structure over water.
- The bidding company must have a minimum of five years of registered establishment.

B. Technical Expertise:

- A minimum of one full-time professional with M. Tech (Str.) / Transportation / Geo-Tech/GIS from reputed institutions such as IIT sor NIT sor any other reputed / foreign universities having 3+ years of minimum experience.
- A minimum of one full time professional with at least Five years of relevant experience and a B. Tech from reputed institutions such as IIT sor NITsor any other reputed / foreign universities with specific expertise in structural health assessments, repair technologies, and concrete durability assessment.
- In-house experts with prior experience indurability modelling, service life predictions, and structural rehabilitation.
- Having experience of the Firm in the related area of work with Govt. organization.
- Minimum 03 nos. of successful Projects completed in the Structural Auditing and Retrofitting with Proof.

C. Durability and Material Specialization:

- Demonstrated focus on durability aspects of concrete structures. Should've completed atleast one project in testing, designing & execution of corrosion mitigation & displayed performance-basedresults over a period of 2+ years verified by are putedinstitute.

D. Resources & Infrastructure:

- Access to state-of-the-art testing equipment for non-destructive and semi-destructive investigations.
- A dedicated team of atleast 10 Technical members, including technician strained for field diagnostics, instrumentation, data interpretation, and reporting.
